PROJECT NUMBER:	1053 (Tng)	SESSION NUMBER:	1
DATE OF SESSION:	05 MAR 90	DATE OF REPORT:	05 MAR 90

METHODOLOGY:	CRV	VIEWER IDENTIFIER:	052

1. (S/STD) MISSION: To describe the target site (Luray Caverns) in Stage 2 terminology.
2. (S/STD) VIEWER TASKING: Encrypted coordinates only.
3. (S/STD) COMMENTS: No Physical Inclemencies. 052 accessed the site quickly and achieved good, accurate perceptions. At one point, 052, for the first time, demonstrated the "classic" symptoms of being so involved with the site as to be out of communication with the Monitor. While this is discouraged in later stages, it is indicative of 052's growing ability to access and maintain strong and excellent site contact.

The soaring cavern walls reflected every color of the rainbow. The light from their candles danced over the surface of crystal-clear pools. And as they turned, there were formations more breathtaking than the last. That August day in 1878, visitors by the millions have made Luray Caverns a popular cave in the East, a world of magic and majesty still as "Marvelously" it was in newspaper headlines over a century ago.
